** select molds from these companies
in addition to their own molds*

The maximum mold discounts listed above are given when a customer's order totals \$200 or more retail value. All mold companies can be combined in an order. No discounts are given when the retail value of an order is less than \$50. The discounts increase as the order total gets larger until the maximum is reached at \$200 total retail value.

For example, if the maximum discount is 30% the discounts are:

\$ 50 - \$99	15%
\$100 - \$199	20%
\$200 +	30%

All other discounts work in a similar manner.

Retail mold prices are those used in the manufacturers' price lists. No additional charges, such as freight are added to the manufacturers' prices.

If molds require shipping from our warehouse there is a 5% of retail mold packing charge plus the actual freight charges to your address.

Studio owners who are legitimate dealers for a major color line such as Duncan or Mayco receive the maximum mold discounts on any order regardless of size.
